

## Over 160 Tennessee Businesses Support Energy and Climate Change Legislation

American Businesses for Clean Energy (ABCE) has identified more than 6,000 companies throughout the United States that support clean energy and climate legislation through organizations and initiatives including: (1) We Can Lead; (2) Business for Innovative Climate and Energy Policy (BICEP); (3) the U.S. Climate Action Partnership (USCAP); (4) Signatories to the American Leadership Ad (Leadership Ad); (5) Pew's Business Environmental Leadership Council (BELC); (6) The Clean Energy Group's Clean Air Policy Initiative (CAPI); and (7) Signatories to two open letters to the U.S. Senate and of course those companies listed with ABCE.

"Nike has long advocated for Congress to pass a comprehensive climate and energy policy ... In 2009, our newest and largest distribution facility located in Memphis, TN achieved LEED Silver certification. It is our goal that our supply chain facilities strive to achieve the smallest environmental footprint possible."

-- Sarah Severn, Director of Stakeholder Mobilization  
NIKE, Inc.
